Definition

The 8- digit article number of JAEGER automotive products aids in defining a suitable solution for your application.

Digits 1 and 2 are:

16.....	7-pin wiring kit without trailer indicator monitoring
12.....	7-pin wiring kit with trailer indicator monitoring
26.....	13-pin wiring kit without trailer indicator monitoring
21.....	13-pin wiring kit with trailer indicator monitoring

Digits 3 and 4 define the vehicle manufacturer, e. g. ..01 Audi, .. 02 BMW

Digits 5, 6, 7 and 8 are issued randomly.

Model	Build date	Numbers of pins	Article number	Net price € + VAT	Vehicle specific	Trailer indicator monitoring	Programming required	Check-Control	Deactivation of PDC	Permanent 12 volt current	Trailer battery charging	CAN-connection	Power supply	Fitting time

		71400011	21,00	foil wrapped cardboard boxed

Trailer sockets 13-pin

Model	Product view	Article number	Net price € + VAT	Description
		72400008	20,00	12 Volt, ISO 11446, screw type terminals, height 50 mm including straight seal for 7- and 13-pin cables
		72400004	21,00	without rear fog light cut-off
		72400006	32,00	with mechanical rear fog light cut-off
				1 x microswitch + 1 mechanical rear fog light cut-off
		72400058	22,00	12 Volt ISO 11446, unbreakable plastic, cable entry straight or sideways, screw terminals, height 50 mm
		72400037	23,00	1 x microswitch
		72400066	25,00	1 x microswitch + 1 mechanical rear fog light cut-off,
				2 x microswitch
		85035661	3,00	rubber seal for straight cable entry
		85033068	2,00	rubber seal for cable entry sideways
		72400003	14,50	12 Volt ISO 11446, unbreakable plastic, cable entry straight or sideways, screw terminals, height 50 mm
		72400020	13,50	12 volt ISO 11446, crimp terminals, height 40 mm, cable entry straight or sideways
				without microswitch
		72400021	20,00	1 x microswitch
		72400022	28,00	2 x microswitch
		87401407	0,70	crimp insert pin 1 - 2,5 mm²
		85035661	3,00	rubber seal for straight cable entry
		85033068	2,00	rubber seal for cable entry sideways

Model	Product view	Article number	Net price € + VAT	Description
		72400507	10,50	without microswitch
		72400502	16,50	1 x microswitch
		72400503	25,00	2 x microswitch
		53400003	37,00	free-hanging trailer socket 12 volt, ISO 11446 for 7-pin leads
		53400004	37,00	for 13-pin leads
		72400023	10,00	Multicon 7+6-pins, without microswitch, crimp type
		72400019	15,50	Multicon 7+6-pins, 1 x microswitch, crimp type
		72400024	20,00	Multicon 7+6-pins, 2 x microswitch, crimp type
		72400014	15,00	Park socket similar ISO 11446 for 12 volt und 24 volt, rubber back seal inclusive

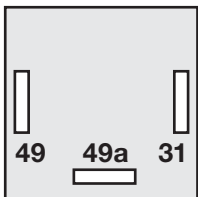

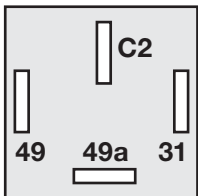

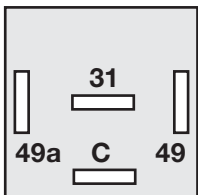

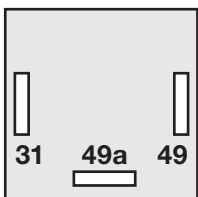

Rubber seals for 7- and 13-pin systems

Model	Product view	Article number	Net price € + VAT	Description
		85401174	1,50	rubber seal for straight cable entry, non-flexibel
		85035661	3,00	rubber seal for straight cable entry, flexibel
		85033068	2,00	rubber seal for cable entry sideways
		85401028	2,30	rubber seal for 2 x straight cable entry
		85400072	2,00	angled rubber seal

Model	Product view	Article number	Net price € + VAT	Description
		62400001	26,00	Short adapter 7-pin trailer socket (towing vehicle) to 13-pin plug (trailer)
		13400029	32,00	Lead adapter 7-pin trailer socket (towing vehicle) to 13-pin plug (trailer) cable length 0,90 m (2,9ft)
		62930000	29,00	Short adapter 13-pin trailer socket (towing vehicle) to 7-pin plug (trailer)
		13400023	84,00	Lead adapter Multicon 7-pin ISO 1724 or 7+16 pin Multicon socket (towing vehicle) to 13-pin plug ISO 11446 (Trailer) cable length 1,0 m (3,3ft)
		13400027	32,00	Lead adapter 13-pin trailer socket (towing vehicle) to 7-pin plug (trailer) cable length 0,90 m (2,9ft)
		62400025	402,00	Voltage transducer Transducer for use of 12 volt trailers on 24 volt towing vehicles 1 x plug 24 volt 15-pin ISO 12098 to 1 x socket 12 volt 13-pin ISO 11446

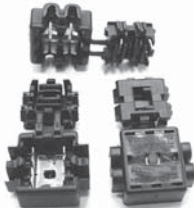

Testers 12 Volt

Model	Product view	Article number	Net price € + VAT	Description
		50400521	249,00	Universal tester for electric checks of 7- and 13-pin trailer sockets cable length 4,50 m (14,7 ft) Test functions: trailer lighting, trailer indicator monitoring, switch-over of rear fog light, cut-off PDC, support test of driver assist systems, pin 9 constant positive 12 volt, pin 10 trailer battery charging
		50400109	249,00	Universal tester for electric checks of 12 volt trailer lights contains 7- and 13-pin trailer sockets, individual switch for each light, pin 9 constant positive 12 volt, pin 10 trailer battery charging

Model	Product view	Article number	Net price € + VAT	Description
		22400100	17,00	Universal extension kit for switch-over of 1 or 2 rear fog lights on towing vehicles to the trailer whilst towing
		52410001	17,00	Indicator relays for trailer operation european contact scheme 2 + 1 (6) x 21 watt and 1 (2) x 0-10 watt, C2- and ground terminal on top side, retainer included
		52410002	18,50	Indicator relays for trailer operation european contact scheme 2 + 1 (6) x 21 watt und 1 (2) x 0-10 watt, retainer included
		52410003	17,00	Indicator relays for trailer operation french contact scheme 2 + 1 (6) x 21 watt and 1 (2) x 0-10 watt, C2- and ground terminal on top side, retainer included
		52410004	17,00	Indicator relays for trailer operation japanese contact scheme 2 + 1 (6) x 21 watt and 1 (2) x 0-10 watt, C2- and ground terminal on top side, retainer included
		52400005	27,50	TFC-module, 8-pin for trailer indicator monitoring with external C2- indicator light
		52410005	32,50	as above, incl. fitting connector and crimp terminals

Relais, modules 12 volt

Model	Product view	Article number	Net price € + VAT	Description
		52400006	31,00	AFC-module 10-pin
		52400007	43,00	Check-control-module 10-pin

 Excluded are times for manipulation of trim and body parts and coding.
 Specifications are subject to change.

Terms and Conditions

1. General Information

The following conditions of sale and delivery apply to the processing of our deliveries and services for companies and are the basis of the orders awarded to us unless otherwise explicitly agreed in writing when the contract is completed. They are valid also for all future business relations even if they are not arranged again explicitly. Such deviations are only valid for the particular business agreed upon and must be newly confirmed by us for each order. Any other terms shall not become subject matter of the contract even if not expressly contradicted by us.

2. Offer and conclusion of contract

Our offers shall be non-binding and subject to change. Declarations of acceptance and all orders require written confirmation or confirmation by fax to attain legal validity. Designs, illustrations, dimensions, weights, technical data, and other performance data shall only be binding if this is expressly agreed in writing. The content of emails is not considered to be a written agreement. Our sales employees and representatives are not entitled to make verbal supplementary agreements or to give verbal assurances exceeding the written sales contract.

3. Prices

The prices are in EUROS. The prices stated in our order confirmation are decisive plus the legally applicable sales tax. If our actual costs between the day of the order confirmation and the delivery date change due to price adjustments from our suppliers or wage rate changes, we are entitled to adjust the prices to the current prices that are then agreed upon.

4. Place of performance and passing of risk, packaging and transportation

Our deliveries are sent according to our selected shipment method from Verl (place of performance). The risk will pass to the purchaser as soon as the consignment has been handed over to the person carrying out the transportation or has left the place of performance. If the goods are ready for dispatch and the shipping or the acceptance of the goods is delayed for reasons which are the fault of the purchaser, risk shall transfer to the customer upon receipt of notification that the goods are ready for shipment. We are entitled to pack the goods as is customary in the business or with the appropriate transport and equipment. Packaging, transport, means of transport and other equipment shall be charged at cost price. Transport packaging and all other packaging pursuant to the packaging regulations will not be taken back. The customer shall have a duty to take care of disposal of packing at his own expense. The goods are forwarded at customer's risk and expense. Upon the customer request the seller shall insure the products against theft, breakage, transport damage, fire and water damage as well as other insurable risks at the buyer's expense.

5. Delivery dates, delivery periods, operational disruptions, partial performances

Delivery dates or periods which may be agreed as binding or non-binding must be stated in writing. If we default on delivery, we must initially be granted a reasonable appropriate additional period that is at least 21 days unless the customer no longer has interest in the fulfilment of the contract. After this grace period has expired with no result, the customer can assert his rights. Any delays in delivery and services due to reasons of force majeure and events that we are not responsible for and that impede us substantially in performance or render the same impossible including subsequently arisen difficulties in material sourcing, operational breakdowns, strike, lockouts, lack of means of transport, official orders, power supply problems etc. also if they occur with our suppliers or their sub-suppliers - shall not be attributed to us even if binding delivery periods and dates have been agreed. In such case we shall be entitled to postpone the delivery or service by the duration of the hindrance plus a reasonable running-in period or rescind wholly or partially from the contract for the parts not yet fulfilled. We shall inform the buyer of delivery problems immediately. We will be entitled to make part delivery and/or part performance.

6. Terms of payment, interest on arrears, maturity, counter claims

The Customer undertakes to pay the purchase price within 10 days of receiving the goods. After this period the customer shall be in default of payment. The delay can also be brought about before the 10 day period with a warning. The customer shall pay interest charges at 8% above the current base rate on all overdue accounts. The enforcement of further damages caused by delay is not excluded by this clause. It is left to the customer to show that no loss or a smaller loss has been incurred. We are not liable for the timely presentation of a bill of exchange, its due protest, due notice, or the return of an unpaid bill, unless we or our vicarious agents are guilty of damage by intention or gross negligence. The customer may only balance with an incontestable and legally effective claim. A right of retention by the customer is not given unless he is a businessman in terms of the German Commercial Code (HGB). This does not apply if the general right of retention is based on undisputed or legally effective established entitlements. The enforcement of the special retention rights of the non-fulfilled contract remains unaffected. If we become aware of circumstances which cast doubt on the creditworthiness of the customer, and in particular the customer fails to honour a check, if other circumstances become known to us which call the creditworthiness of the purchaser into question, we will be entitled to declare the total residual debt to be immediately due and payable even if we have accepted checks. In such event we shall also be entitled to make our obligation dependent on the prepayment or an appropriate security. If we are obliged to provide advance services, we may refuse performance if it becomes apparent after conclusion of the contract that our counterclaim is jeopardised by the inability to fulfil payment obligations of the other part.

Inability to perform payment includes war, import and export bans, collapse of suppliers, opening of insolvency proceedings, individual enforcements or bill protests. We are entitled to set a deadline when the customer must either effect payment or provide security. After the unsuccessful expiry of the period, we are entitled to withdraw from the contract.

7. Claims, warranty

The object of purchase is free of defects if it is of the agreed quality. Only the agreement made according to clause 2 is valid. Public statements, promotion or advertising by the manufacturer do not constitute contractual data on the nature of goods. The customer does not obtain a guarantee in the meaning of the law. Manufacturer's guarantees remain unaffected. The customer must verify conformity of the delivered products with the contract immediately upon receipt. If the customer intends to file a deficiency claim, the claim on grounds of obvious defects is only admissible within 10 days of delivery. The date of the delivery and the date of the receipt of the deficiency denouncement count for the calculation of the period. Defects that, even after careful inspection, could not be discovered within this period of time have to be reported to us immediately after their discovery. We are entitled and obliged to select to improve or replace the subject matter (subsequent performance) for justified complaints. The customer is entitled to set a reasonable period of at least 21 days for these services to be supplied. If subsequent performance fails or the deadline expires unsuccessfully, the customer is entitled to price reduction, withdrawal from the contract or damages instead of the service. However, in the event of a minor breach of contract, particularly in the event of minor faults, the customer is only entitled to a price reduction. Compensation instead of performance is limited to typical foreseeable damage. The warranty period is one year after delivery of the object of purchase. The above-mentioned limitation of liability, particularly the limitation of the warranty period, does not apply unless clause 10 provides an exception. All of clause 7 does not apply if a customer has recourse due to a claim by a user concerning a defect from the seller (entrepreneur's recourse).

8. Retention of title

The goods remain our property until payment of all claims regardless of the legal reason and until all checks given to us are cleared even if the invoice amount for special named demands is paid. The reserved ownership shall be security for our current account claims. The reserved goods are reprocessed on our behalf and free of charge as well as without any obligation for us within the meaning of sec. 950 BGB. If the customer combines our goods with others not belonging to us, we will be entitled to co-ownership of the newly manufactured article as a proportion of the value of our reserved goods, used for the manufactured article, relative to the sales value of the new article at the time of processing. It is deemed to be a product sold under retention of title as envisaged by our conditions. The customer is only entitled and authorized to sell goods, which are subject to retention of title, due to purchase contracts, service contracts, supply contracts or similar contracts as long as he is not behind with his payments and if the associated rights are transferred to us. The customer's claims from the resale of the conditional commodities are here and now assigned to us for securing all claims, irrespective of whether the products subject to retention of title are sold with or after processing or whether they are sold to one or more buyers. At our request, the customer shall be obligated to inform his third party buyer of such assignment. If the value of the realisable securities accruing to us exceeds our claims in total by more than 20 percent, then we are obligated to release securities according to our choice on request from the buyer or a third party affected by the transfer of surety. The customer is not entitled to dispose of the reserved goods in any other way. Pledging and assignment as security shall be inadmissible. If the item is distrained or confiscated or otherwise disposed of by third parties, the buyer must inform us without delay. If the buyer acts in contravention of this agreement (in particular, default in payment) we are entitled to withdraw from the contract in accordance with the law.

After withdrawal, the customer is obliged to return the goods.

9. Place of jurisdiction

The place of jurisdiction for all claims emerging out of the contract relationship and legal disputes, including document procedures and bill change procedures, is Gütersloh unless the buyer is a businessman in terms of the German Commercial Code (HGB), legal entity under public law or separate public fund assets. Moreover, the legal provisions apply

10. General Limitation of Liability

Liability due to intent and gross negligence only applies with regard to any breach of minor contractual duties, culpa in contrahendo and tort. The limitations of liability included in these General sales and delivery conditions do not apply for breach of fundamental contractual obligations or claims arising from product liability. Furthermore, the limitations of liability do not apply to damage caused to the customer's health that can be attributed to us or loss of life to the customer

11. Severability clause, international sales law

Should any of the provisions of these conditions or of other terms agreed be or become void, the validity of the remaining parts of these conditions or agreements shall not be affected. This agreement is governed by the laws of the Federal Republic of Germany excluding UN convention from 1980 concerning international sales law.

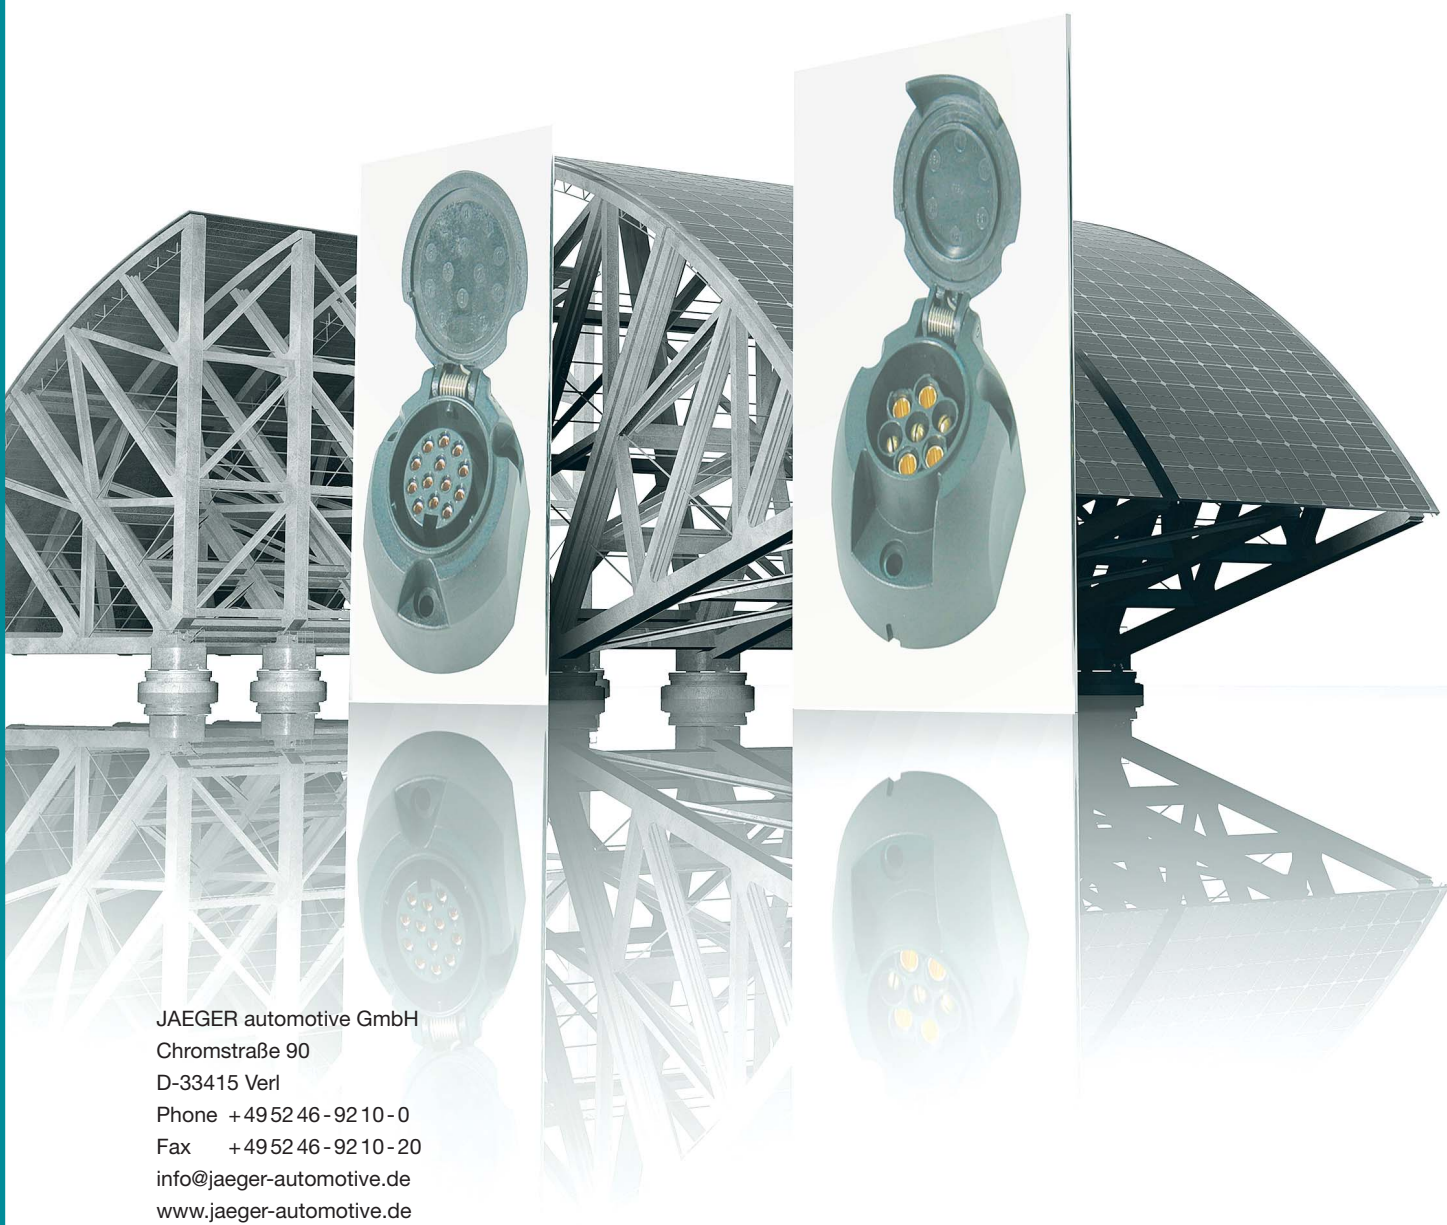

Only the German version of these Terms and Conditions is legally binding. The English version is for convenience.
